## Courses and Certifications

Introduction to Front-End Development

Programming with JavaScript

Version Control

HTML & CSS in depth

React Basics

Advanced React

Principle of UI/UX Design

# KOSISOCHUKWU HENRY OKEKE

A recent graduate with a Bachelor of Engineering Degree in Computer Engineering. Enthusiastic about learning and problem solving. I have developed strong foundational knowledge of computer Network architectures, Network Troubleshooting, Fiber to the Home Architecture and Network Design. I am also skilled in Frontend web development using React and backend development using Django framework. I am eager to putting my acquired skills and knowledge into innovative solutions and contributing to nation development.

## Experience

### April 2023 – Present

Network Support Engineer (NYSC Intern) | [ipNX Nigeria Limited](#) | [Victoria Island, Lagos](#)

- Provide 3rd level Fiber Optic Network Support to customer's on ipNX GPON
- Basic Network Troubleshooting on Network devices like switches, routers, Access points and Firewalls
- Configuration of Network devices such as Wireless Extenders, Access points
- Configuration of Optical Network Terminals (ONT/ONU) for customers
- Perform surveys for network coverage extension in homes and offices and prepare reports.
- Interaction with customers to solve their internet connectivity issues.
- Gained Knowledge on fiber to the home Architecture and Fiber Network Design including the transmission procedures from the Optical Line Terminal (OLT), Optical Distribution Frame (ODF), and Multiport Service Terminal (MST) down to customer's ONT/ONU.

### June 2021 – October 2021

Network/IT Support Intern (Student Internship) | [Sidmach Technologies](#) | [Ikeja, Lagos](#)

- Trained on Basic Computer Networking, Troubleshooting, Network Architecture and Design including the core, distribution and access layers of networks.
- Gained practical Knowledge and demonstration of the OSI models at work
- Introduced to CISCO packet tracer used for network simulation and design.
- Introduced to Data Center and gained knowledge on server technology
- Gained Knowledge on troubleshooting procedures for Switches, routers, access points, network desk phones, firewalls, printers, and PCs.
- Was in charge of regular checks and maintenance of the inverter batteries which served and backup power for the Data center.

## Education

Madonna University Nigeria | [Akpugo, Enugu.](#)

**2017 - 2022** | [Bachelor of Engineering in Computer Engineering](#)  
[2<sup>nd</sup> Class Upper Division](#)

## Key skills and characteristics

- Proficient in Microsoft Word, Excel, and PowerPoint
- Web development using JavaScript, Python, HTML & CSS, React and Django.
- Proficient in the use and installation of Microsoft Windows Operating System, windows server and Linux.
- Knowledge of the Architectures involved in FTTX & FTTH
